

The Story of

SUPER SOAP VS KLAUS THE GERM

Written by Carly Young
Illustrated by Mark A Gilchrist

**There is a germ
whose name is Klaus.**

**He loves to travel
and has no house.**

**Klaus the germ lives
everywhere.**

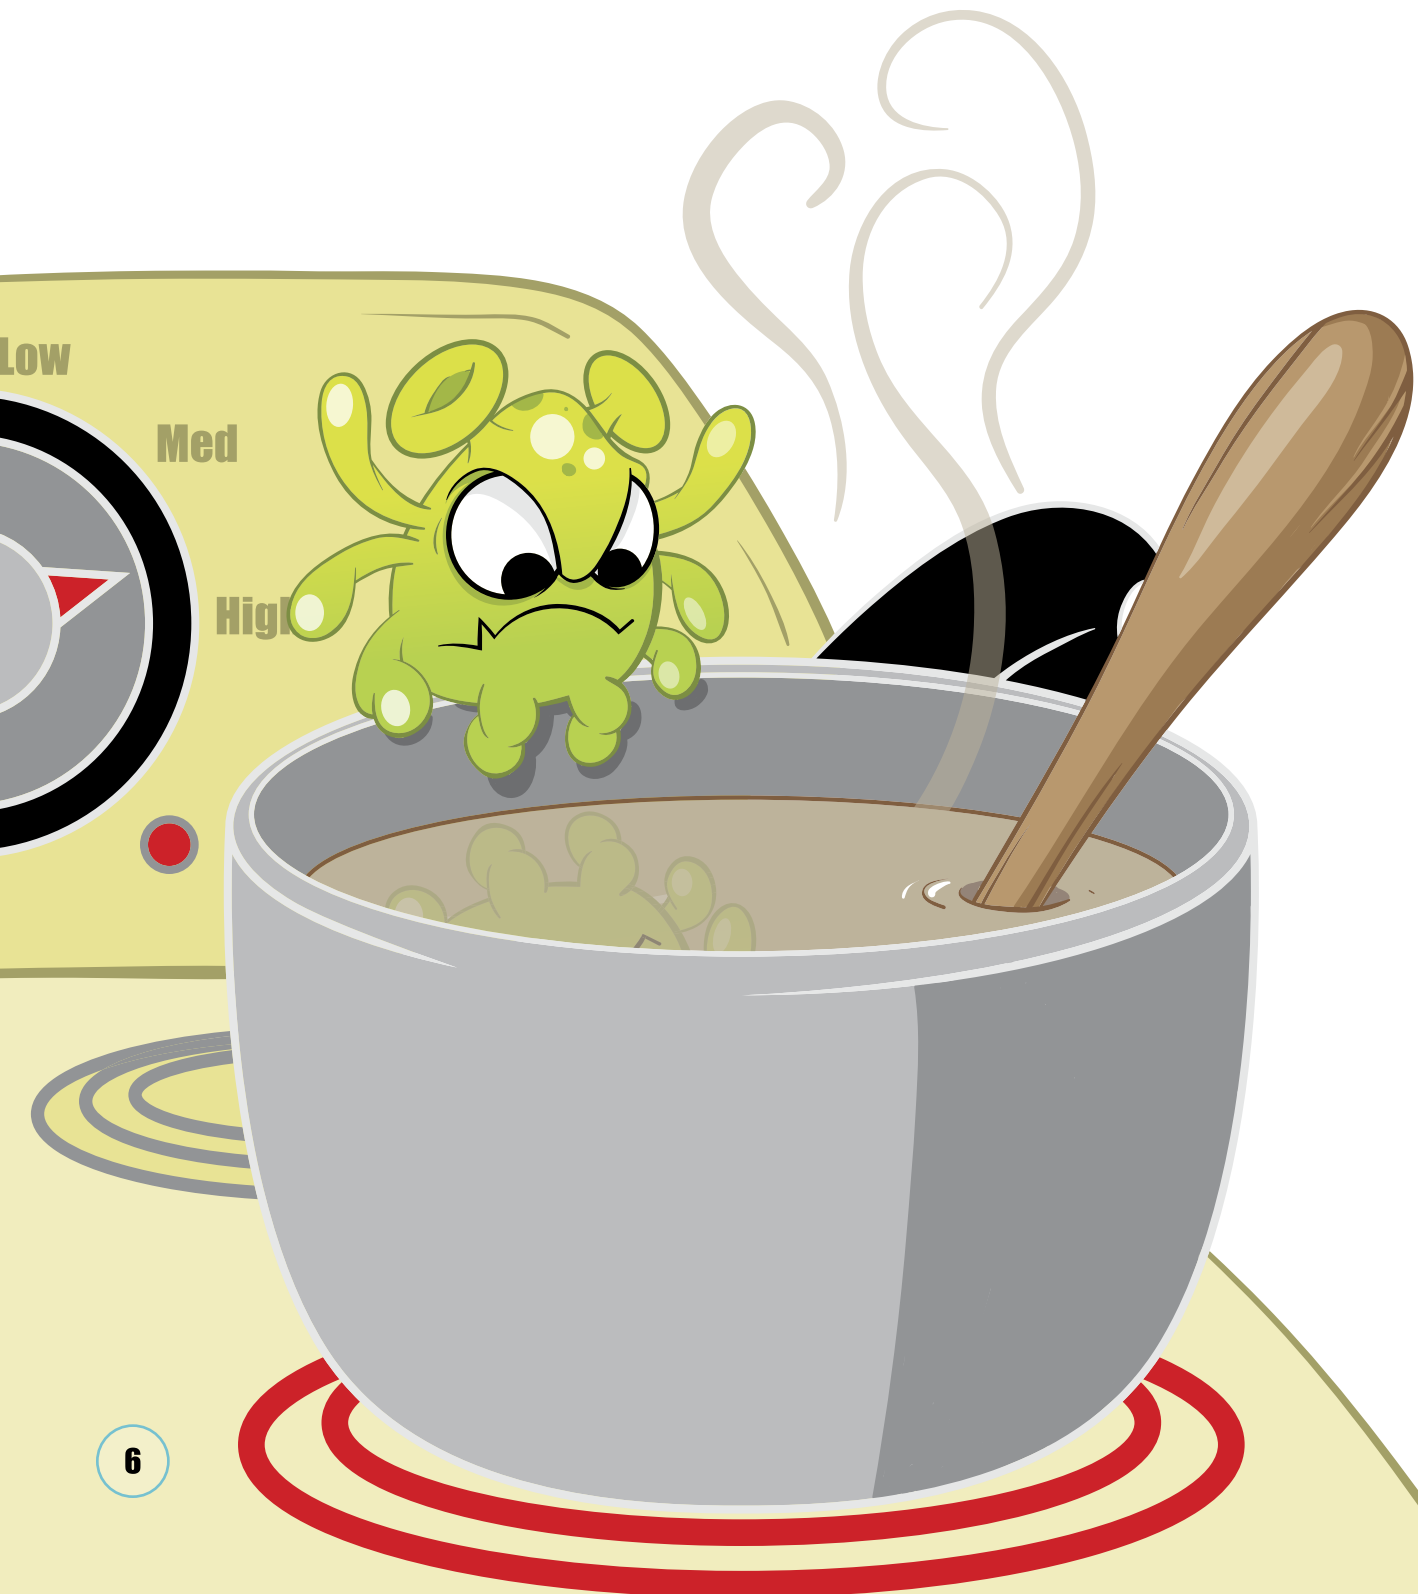

**He lives on your desk
and your chair.
He is always there.**

**He likes all things
smelly or not.**

**He can be on the garbage
or even a pot.**

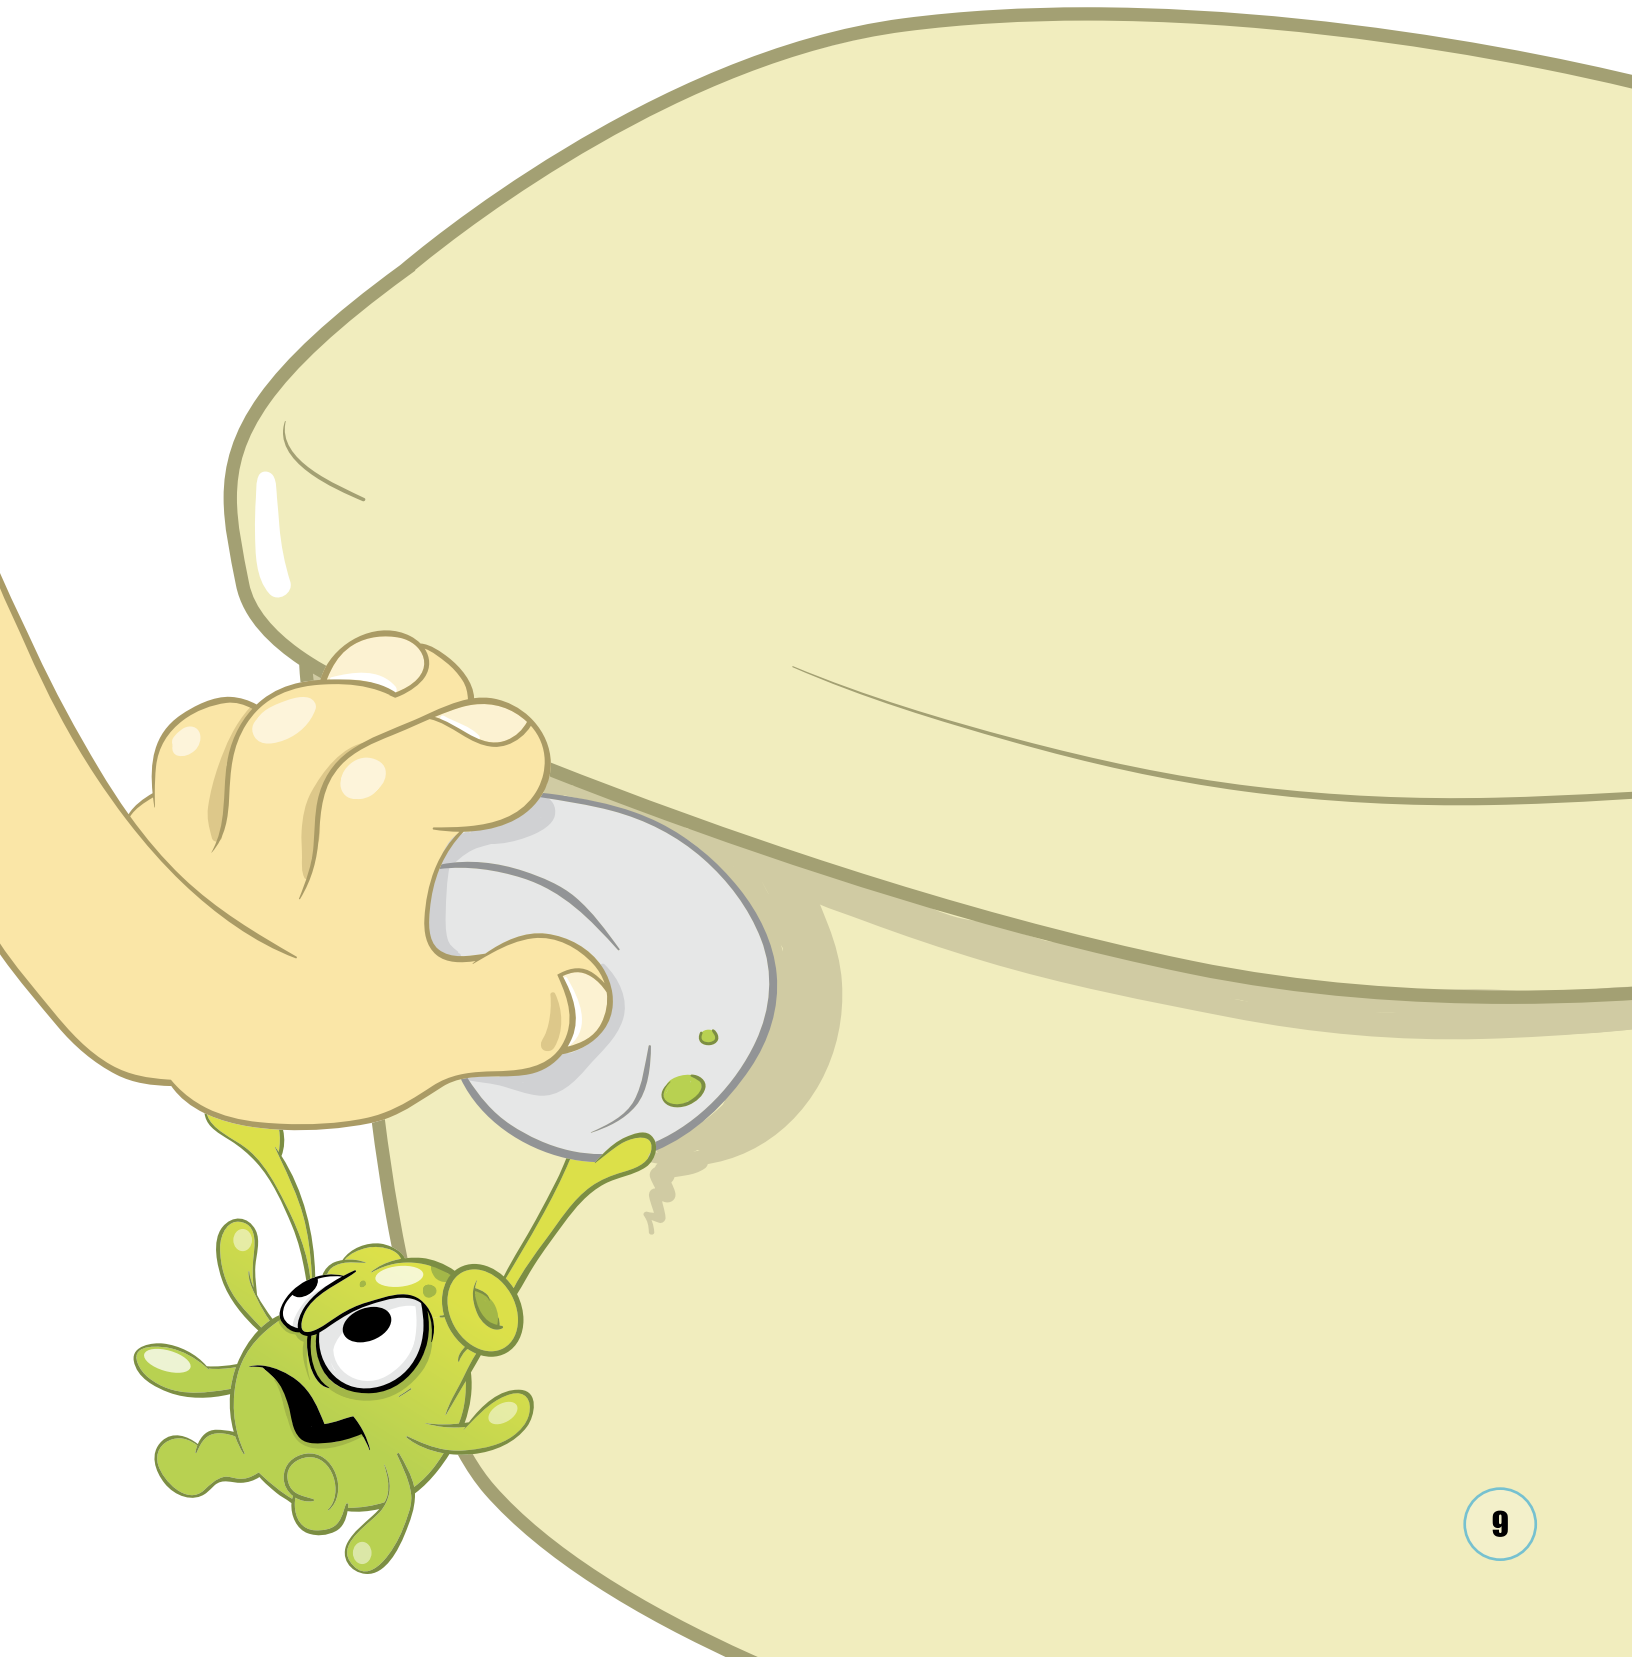

**You can find Klaus
on a slide at the park.**

**You can even find him
on a dog that barks.**

**As we touch these things,
Klaus hitches a ride.**

**On our palms, under our nails,
he likes to hide.**

**You cannot see Klaus,
because he is so tiny.**

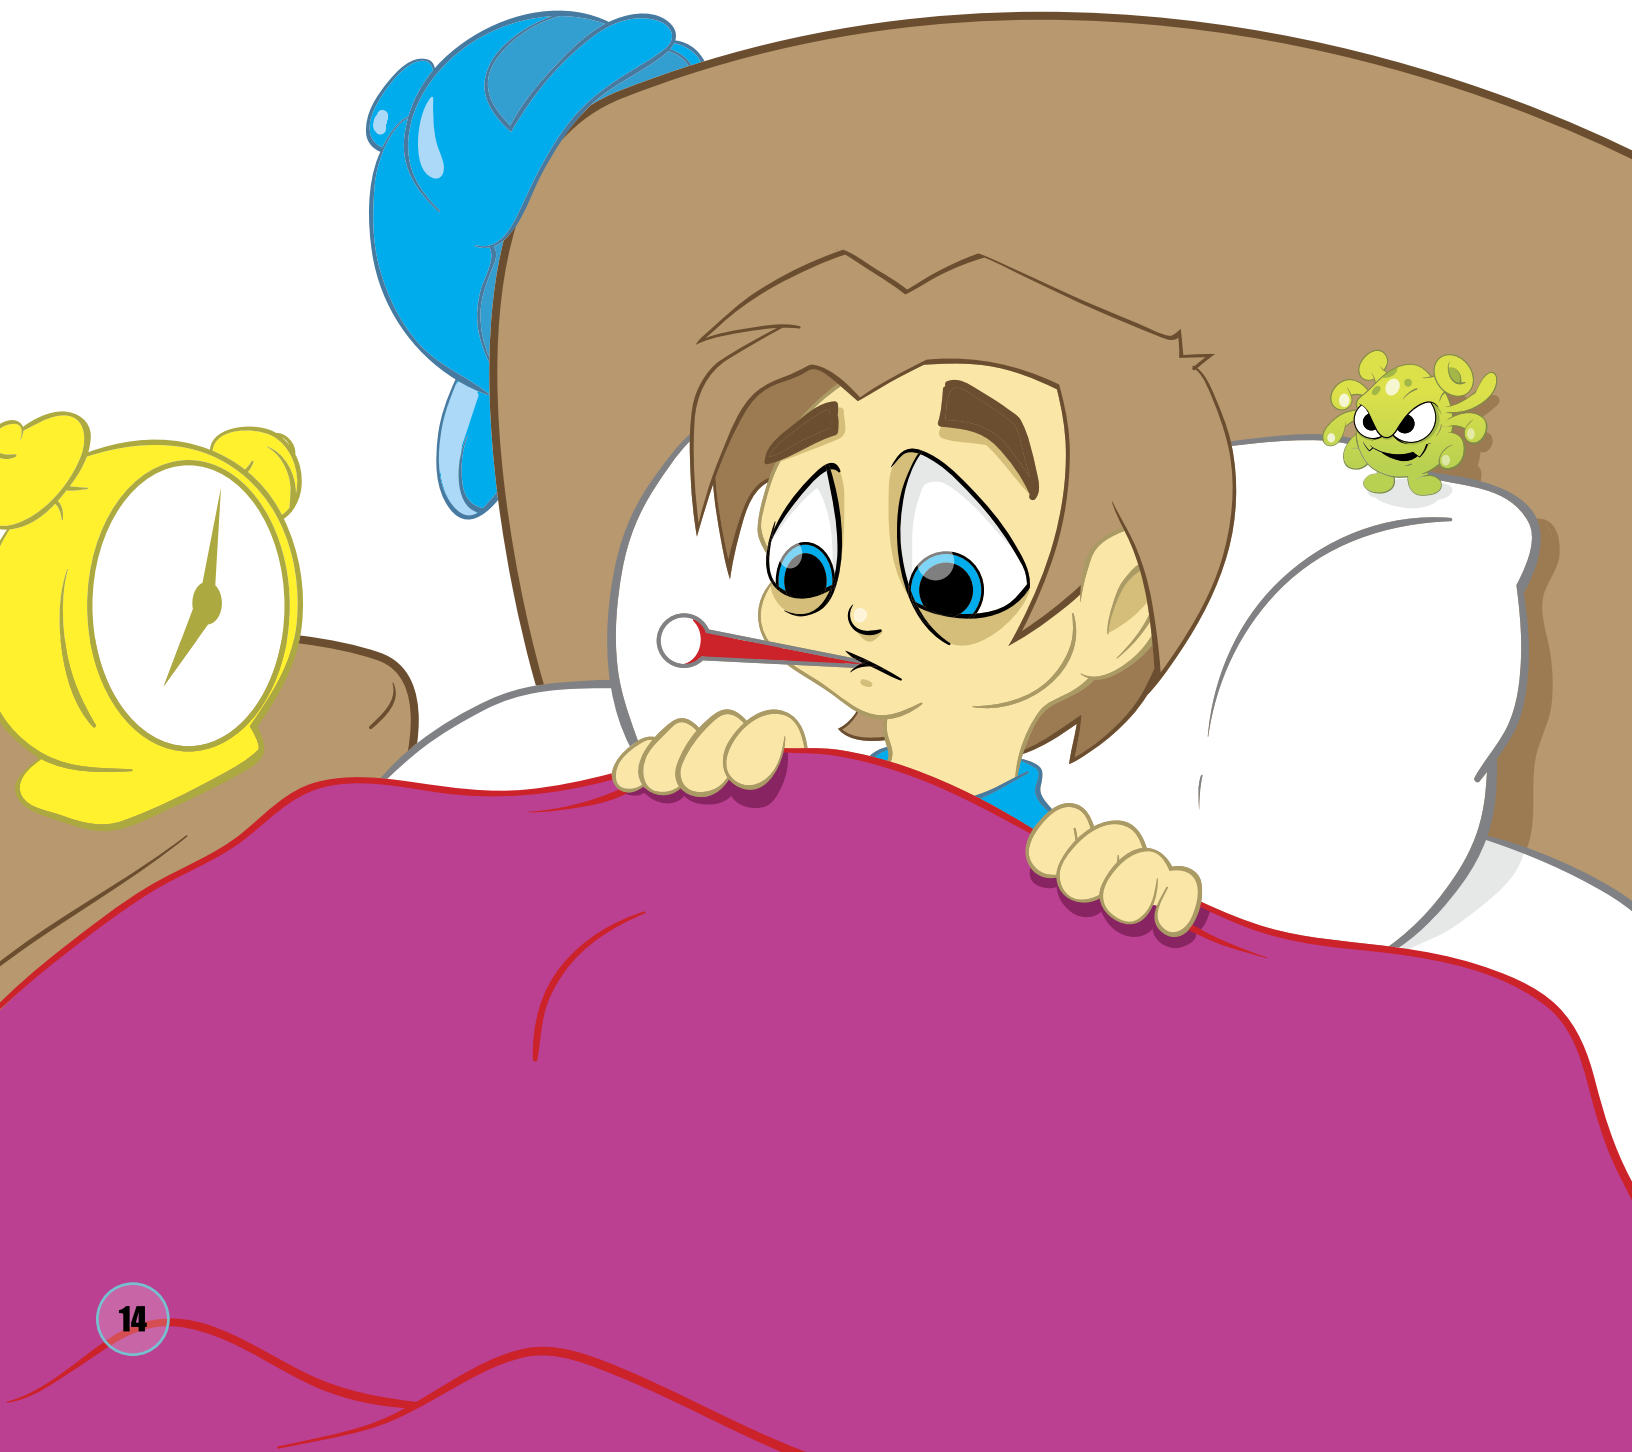

**Even though he is small,
his powers are mighty.**

**Klaus can make us
feel not so great.**

**He can make us sick
and our tummies ache.**

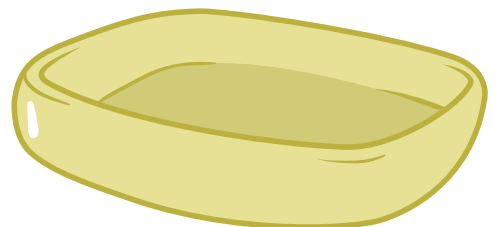

**But there is someone
who brings us hope.**

He goes by the name of
Super Soap!

**Super Soap is used
on our hands.**

**He makes bubbles
and foam that
Klaus can't stand!**

**We all need to help
Super Soap win.**

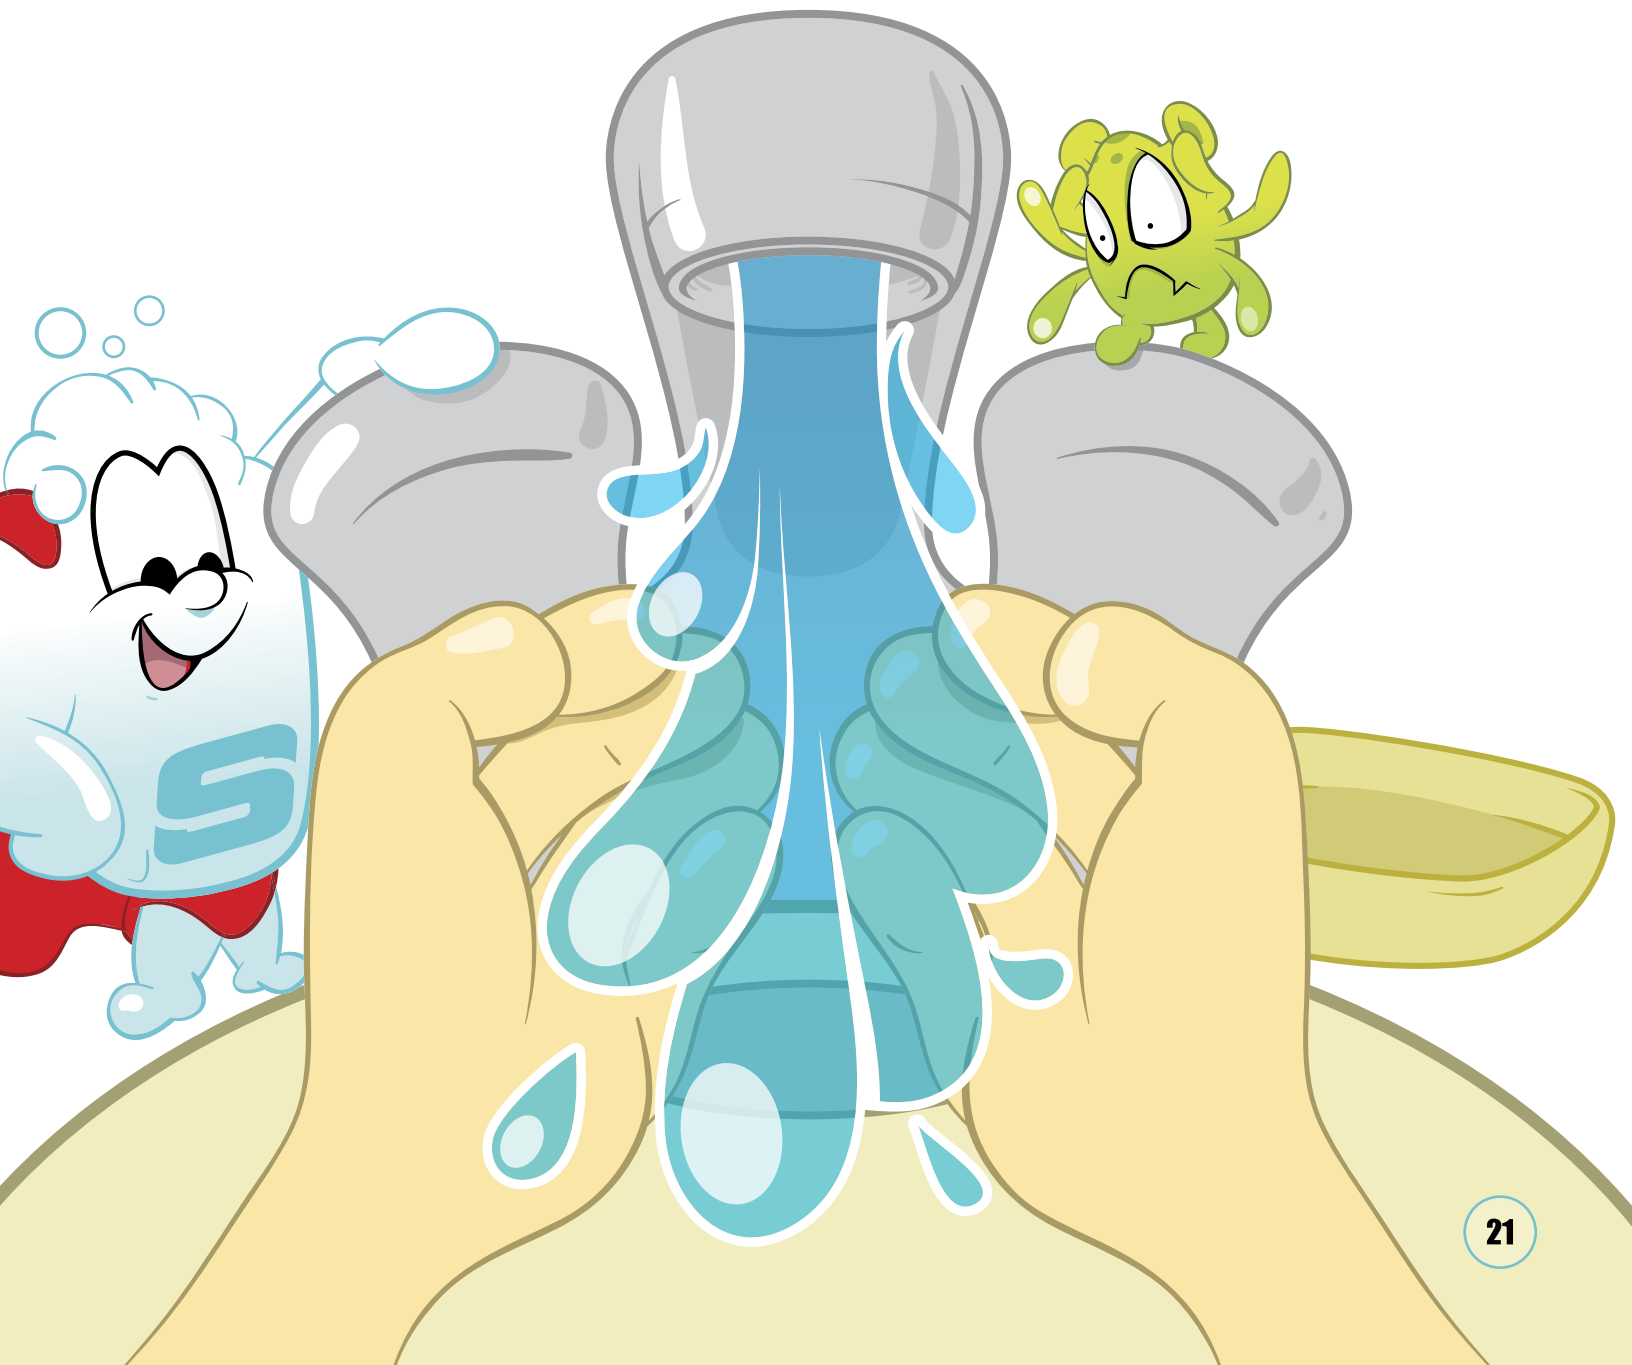

**So listen closely to the
5 steps to make your
super powers kick in.**

Step 1: WATER

**Turn on the water
and wet your hands.**

Step 2: SOAP

**Turn off the water, put Super Soap on your hands, then rub them to make bubbles
Klaus can't stand.**

Step 3: SCRUB

Scrub your hands and every finger, to get the dirt that's in between.

Keep scrubbing for 20 seconds to make sure they're all clean.

Step 4: RINSE

Turn on the water and give your hands a rinse.

Step 5: DRY

Dry your hands well, turn off the water with the paper towel, and throw it away. It only makes sense.

**When you wash your hands
and do it right, Super Soap
finds Klaus and gives him a
fight.**

**Super Soap says, “Remember
the 5 steps: Water, Soap,
Scrub, Rinse, and Dry.”**

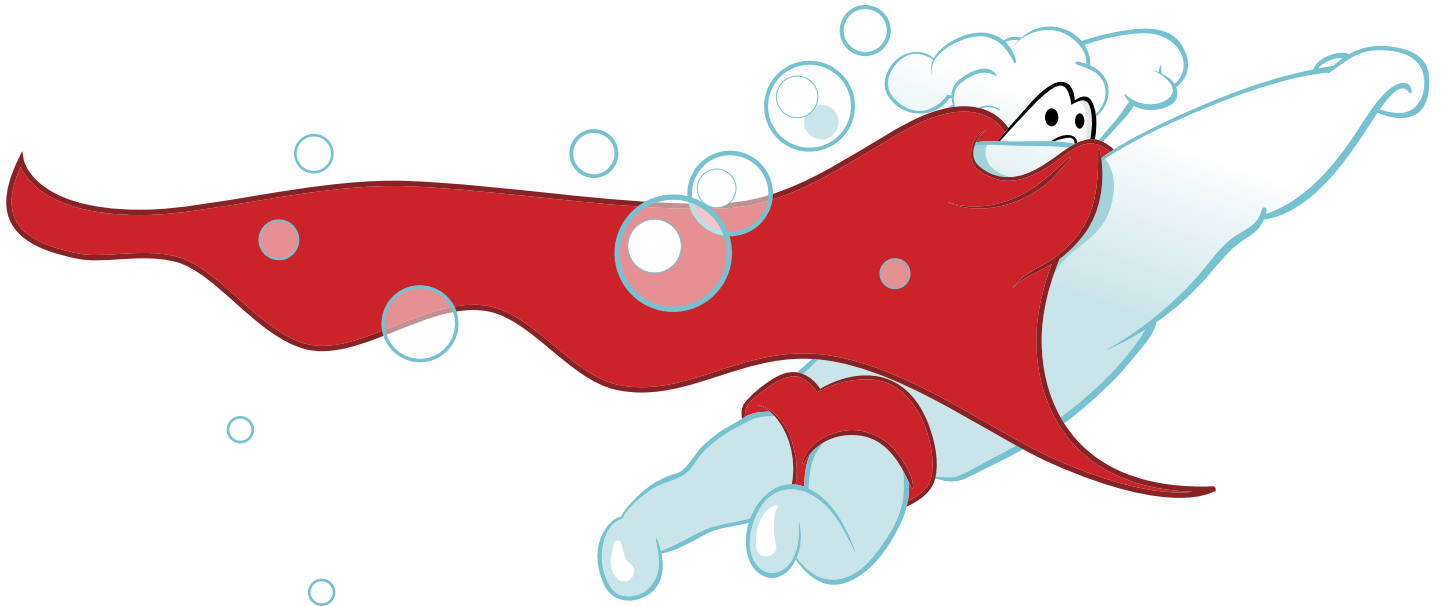

**“Everyone does it, whether
we’re a girl or a guy.”**

**“Thank you
for doing the
5 steps,” Super
Soap says.
“The more you
practice, the
better you get!”**

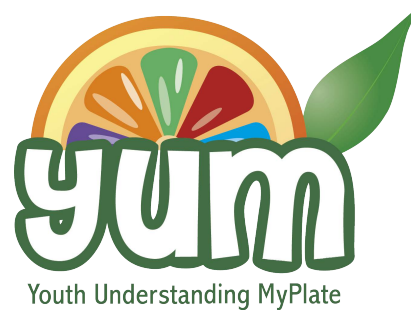

**“I need your help!
So please, don’t forget.”**

The End
